DMD Systems Recovery
Certifications

DMD Systems Recovery Inc. (DMD) maintains industry-leading certifications including R2v3, ISO 9001, ISO 14001, ISO 45001, NAID AAA, and is a certified B Lab Corporation. DMD ensures complete responsibility for all IT Asset Disposition (ITAD) services by exceeding industry standards with our service delivery and end-to-end transparency.

- The R2v3 certification ensures the safe disposal of electronics in reuse and recycling.
- DMD is certified in 4 R2v3 Appendices:
  - Downstream Recycling Chain
  - Data Sanitization
  - Testing & Repair
  - Brokering

- ISO certifications demonstrate documented processes to improve business operations.
- DMD is certified in 3 ISO areas:
  - ISO 9001- Quality Management Systems
    - Aids in the production of high-quality products and services.
  - ISO 14001 - Environmental Management System
    - Enhances environmental performance with the fulfillment of compliance obligations and sustainability initiatives.
  - ISO 45001 - Occupational Health & Safety
    - Improves employee safety and reduces workplace risks.

- NAID AAA certification monitors the process for sanitization or physical destruction of electronic storage media.
- DMD is NAID AAA certified for both onsite and offsite data destruction.
  - Onsite data destruction
    - Performing data destruction at the customer's premise during destruction. Onsite is the most secure option, but with greater cost and time associated.
  - Offsite data destruction
    - Requires the transport of equipment to a NAID AAA certified facility for destruction.

- A certified B Lab Corporation formally commits to meet the highest standards of verified social and environmental performance, public transparency, and legal accountability to balance profit and purpose.
